

## **Finalists Announced for the 2025 Restaurant & Catering Hostplus Awards for Excellence – QLD & NT**

The Restaurant & Catering (R&CA) Hostplus 2025 Awards for Excellence has officially announced the finalists for Queensland and the Northern Territory, shining a spotlight on the dedication, innovation, and talent driving the hospitality industry forward.

This year's program recorded a record number of nominations—highlighting the strength of the sector and the exceptional standards being set across the board. From fine dining and cafés to catering operations and restaurants located within venues, the Awards span a broad range of categories, recognising the many hands and disciplines that contribute to memorable guest experiences.

Winners will be announced at the official gala dinner on Monday, 14 July 2025, at the JW Marriott Gold Coast Resort and Spa. The evening will be a black-tie celebration of achievement, bringing together professionals from across the foodservice industry for a night of recognition, connection, and celebration. Early bird tickets are on sale now until 16 June, and with strong demand already, the event is expected to sell out.

John Hart OAM, National President of Restaurant & Catering Australia, says the 2025 finalists reflect the depth and professionalism of the industry:

“This year's finalists are a true reflection of the drive, creativity, and high standards that define hospitality in Queensland and the Northern Territory. These Awards go beyond what's on the plate—they recognise the people and processes behind every great dining experience. Whether in a café, a catering kitchen, or a restaurant within a venue, excellence is being delivered every day—and that deserves to be celebrated.”

The R&CA Hostplus Awards for Excellence are the industry's most trusted and respected award platform, offering a benchmark for best practice and an opportunity for businesses to be acknowledged for their contribution to the sector.

Finalists and guests are encouraged to secure tickets early to avoid missing out on what is set to be the industry night of the year.
